increasing specialization within the discipline of english and american studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts these developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading as a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions the handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from james s the ambassadors to mccarthy s the road these readings do not revert naively to a time before theory instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

this book proposes a renewed myth critical approach to the so called wasteland modernism of the 1920s to reassess certain key texts of the american modernist canon from a critical prism that offers new perspectives of analysis and interpretation myth criticism and more specifically the critical survey of myth as an aesthetic and ideological strategy fundamental for the comprehension of modernist literature leads to an engaging discussion about the disenchantment of myth in modernist literary texts this process of mythical disenchantment inextricable from the cultural and historical circumstances that define the modernist zeitgeist offers a possibility for revising from a contemporary standpoint a set of classic texts that are crucial to our understanding of the modern literary tradition in the united states this study carries out an exhaustive and updated myth critical examination of works by t s eliot john dos passos f scott fitzgerald ernest hemingway john
